

# THE HDD PARTNER ENVIRONMENTAL CHECKLIST

WHAT TO VERIFY BEFORE YOU DRILL.  
PROTECT THE ENVIRONMENT AND YOUR REPUTATION.

FIELD-TESTED  
CHECKLIST

GOOD ENVIRONMENTAL PRACTICES  
KEEP JOBS MOVING AND COMMUNITIES PROTECTED.

PROTECT  
NATURAL  
RESOURCES

COMPLY WITH  
REGULATIONS

RESPECT  
OUR COMMUNITIES

## 1 PLAN & PREPARE FOR ENVIRONMENTAL SUCCESS

- ☐ Review environmental permits and requirements
- ☐ Complete pre-job environmental assessment
- ☐ Identify sensitive areas and resource locations
- ☐ Establish erosion and sediment control measures
- ☐ Identify spill prevention and response plan
- ☐ Ensure wildlife and habitat protection is in place
- ☐ Notify required agencies (if applicable)
- ☐ Communicate environmental plan with crew

## 2 PROTECT THE JOBSITE DURING OPERATIONS

- ☐ Contain all drilling fluids and cuttings
- ☐ Use secondary containment for fluids
- ☐ Inspect and maintain equipment daily
- ☐ Prevent leaks and report issues immediately
- ☐ Contain all drilling fluids and cuttings
- ☐ Use secondary containment for fluids
- ☐ Inspect and maintain equipment daily
- ☐ Prevent leaks and report issues immediately

## 3 RESTORE & LEAVE NO LASTING IMPACT

- ☐ Backfill and grade disturbed areas
- ☐ Remove excess materials and debris
- ☐ Reestablish vegetation as required
- ☐ Remove erosion and sediment controls
- ☐ Inspect site and restore as needed
- ☐ Document site restoration efforts

## 4 ENVIRONMENTAL COMMITMENT BUILDING A SUSTAINABLE FUTURE

We are committed to responsible drilling practices that protect the environment for future generations.

Follow all environmental laws and regulations

Use resources efficiently

Reduce waste and emissions

Train and empower our teams

Continuously improve our practices
